No converts either for men or women are to be found in Sweden and Norway. They are forbidden by law.

The smallest amount of coin issued from the English mint during the past twenty years was in 1892, when only \$22,440 was issued. The largest coin was in 1872, when \$16,562,691 was issued.

Lady Gordon, in her search through English libraries for books written by women, has discovered a pamphlet on rights of women, published in 1606 by Mary Ascell. Its title is "Advice to Ladies."

In olden times in New England it was supposed that the first unmarried person of the other sex whom one met on St. Valentine's morning while out walking was a destined wife or a destined husband.

The Daughters of the Texan Revolution have started a movement for the state to inclose the battlefield of San Jacinto, and to erect a monument in memory of the soldiers who are buried there.

Lord Chief Justice Colclough of England will probably visit the Chicago exposition. If so, Uncle Sam will have to extend to the courtiers exchanged by his lordship to Justice Harlan on his recent visit to London.

Joseph Schlessor of Oakland, Cal., thinks he has solved the problem of Arctic travel by means of a device which puts a petroleum engine on a sled and makes the engine drive a series of spurs which take hold of the ice and force the sled forward.

A silver spoon, which was lost by Horace Woodward of Davylon, Conn., for now eighty years of age, when he was six years old, has been restored to him, he claims. The spoon was found at the bottom of a well, which was being cleaned out.

The little flag that Gen. Walker bore at the head of his Quirkie expedition into Nicaragua is in the possession of a San Francisco official. It is of blue and white silk and muslin, with a red star in the center, on which are embroidered the initials "W. B." signifying "Walker's Battalion."

John Louie, who recently died in a penitentiary condition at New York City, was at one time worth \$2,000,000. But he could not "leave well enough alone" and wasted his means by backing his opinions on the fluctuations of the grain market. He was swamped in the wheat pit.

The average person trims off his thirty-second part of an inch from each finger nail a week, or about an inch and a half every year. The average of human life all over the world is 40 years. There are 1,800,000,000 people in the world who, therefore, waste on an average 28,400 miles of finger nail in a generation.

The Mexican government virtually controls elections in that country. A man awoke one morning to find on his door an official notice of his election to office, that being the only intimation that his name was mentioned as a candidate. The government had nominated and elected him.

A lady writing to the London newspapers from a fashionable West End address urges society dames to abstain from drinking champagne during Lent and give the money thus saved to the poor. This appeal is a curious one, and the assumption upon which it is based is that the rich women of England.

A large dirigible balloon, intended to make headway against air currents of 28 miles an hour, is being made in France. It will be similar in form to the La France of 1884-5, but larger—280 feet in length and 43 feet in its greatest diameter. It will weigh 60,000 pounds per hour, and will be propelled by a screw in front with a rudder behind.

As regards hospitals, the teeming millions of London can count upon only one bed per 1,000—a proportion which is unequal among the large towns of Great Britain. Glasgow, Newcastle, Warrington and other large towns have 1,000; Edinburgh, 3,74; Dublin, 1,22; Norwich, Belfast, Bristol, Liverpool, Manchester and Bristol have an average of 212 beds per 1,000.

Dogs are slaughtered for culinary purposes in considerable numbers at Munich. The friend of man comes to table not only dressed as sausages, but dressed in various forms and with dress suits, but when one gets to gastronomy is said to have been introduced by the numerous Italian laborers who have settled in the Bavarian capital.

The best tobacco bags are made not of leather or rubber, but of the pouch of a pelican. The monstrous members which fill out the lower bill of the pelican, early tanned, and dressed, makes a beautiful article of leather, possessing the quality of being as impervious to water as India rubber. Tobacco kept in it will never become dry, but retains its sweetness and aroma even longer than when preserved in tin foil.

There is a little reptile belonging to Madagascar known as the scutiger snake, that is the curling snake, running along the back from head to tail is a blackish, horny substance, which bends with the convolutions of the snake's body as readily as would a well tempered steel spring; and throughout its entire length it bears an edge hard as a razor, and sharp as a razor. The scutiger snake, when it is very old, will do, he will soon have a leg off unless cracked on the pate. Some snake specialists claim that the presence of this reptile on the island is the reason there are no large quadrupeds to be found there at present. The scutiger snake lacerates having taken off legs faster than they could be created.

No converts either for men or women are to be found in Sweden and Norway. They are forbidden by law.

The wild lands of Maine would make thirteen states as large as Rhode Island, and so large as New Hampshire and Vermont and one twice as large as Massachusetts.

The smallest amount of coin issued from the English mint during the past twenty years was in 1892, when only \$22,440 was issued. The largest coinage was in 1872, when \$16,352,691 was issued.

Lady Gordon, in her search for English libraries for books written by women, has discovered a pamphlet on the rights of women, published in 1606 by Mary Assell. Its title is "Advice to Ladies."

In olden times in New England it was supposed that the first unmarried person of the other sex whom one met on St. Valentine's morning while out walking was a destined wife or a destined husband.

The Daughters of the Texan Revolution have started a movement for their state to include the battlefield of San Jacinto, and to erect a monument in memory of the soldiers who are buried there.

Lord Chief Justice Colclough of England will probably visit the Chicago exposition. If so, Uncle Sam will have a chance to repay the courtesies extended by his lordship to Justice Harlan on his recent visit to London.

Joseph Schlusser of Oakland, Cal., thinks he has solved the problem of Arctic travel by means of a device which puts a petroleum engine on a sled and makes the engine drive the sled.

An explosion of a boiler occurred in an oil well at Martinville, Ont. James Duncan, owner of the wells, and his engineer, Leggett, and another man, were killed. The loss is \$17,000.

A silver spoon, which was lost by Horace Woodward of Dayville, Conn., who is now eighty years of age, when he was six years old, has been restored to him, he claims. The spoon was found at the bottom of a well, which was being cleaned out.

The little flag that Gen. Walker bore at the head of his Quixotic expedition into Nicaragua is in the possession of a San Francisco official. It is of blue and white silk and muslin, with a red star in the center, on which are embroidered the initials "W. B.," signifying "Walker's Battalion."

John Lourie, who recently died in a penniless condition in a New York hospital, was at one time worth \$2,000,000. But he could not "leave well enough alone" and wasted his money by indulging his opinions on the fluctuations of the grain market. He was swamped in the wheat pit.

The average person trims off of the third-party part of an inch from each finger nail a week, or about an inch and a half every year. The average of human life over the world is 40 years, and the average of people in the world who, therefore, will live an average 28,400 miles of finger nail in a generation.

The Mexican government virtually controls elections in that country. A man awoke one morning to find on his desk an official notice of his election to office, that being the first intimation that his name was mentioned as a candidate. The government had nominated and elected him.

A lady writing to the London newspapers from a fashionable West End address urges society dames to abstain from drinking champagne during Lent and give the money thus saved to the poor. The appeal is a curious one, and the Londoner upon which it is countenanced based its success by fattening to the rich women of England.

A large dirigible balloon, intended to make headway against air currents of 28 miles an hour, is being made in France. It will be similar in form to the La France of 1884-5, but larger—280 feet in length and 43 feet in its greatest diameter. It will weigh 60 pounds per horse power, and will be propelled by a screw in front with a rudder behind.

As regards hospitals, the teeming millions of London can count upon only one bed per 1,000—a proportion which is unique among the large towns of Great Britain. Glasgow, Newcastle, Wolverhampton, Birmingham, and London, 1,000; Edinburgh, 354; Dublin, 67; Norwich, Belfast, Brighton, Liverpool, Manchester and Bristol have an average of 212 beds per 1,000.

Dogs are slaughtered for culinary purposes in considerable numbers at Munich. The friend of man comes to be only disguised as sausage, but dressed in various forms and with diverse sauces, without any attempt to incognito. This department in gastronomy is said to have been introduced by the numerous Italian laborers who have settled in the Bavarian capital.

The best tobacco bags are made not of leather or rubber, but of the pouch of a pelican. The moisture in the membrane which fills out the lower bill of the pelican is soft and thin, of very fine texture, easily tanned, and when dressed, makes a beautiful article for leather, possessing the quality of being as impervious to water as India rubber. Tobacco kept in it will never become dry, but retains its sweetness and aroma longer than when preserved in tin foil.

There is a little reptile belonging to Madagascar known as the scutiger snake, that is the curling sword. Running along the back from head to tail is a blackish, horny substance, which bends with the convolutions of the sword as readily as would a well tempered steel spring and throughout its entire length it bears an edge hewn as a flint and sharp as a razor. They are not poisonous, but when one of them springs on a man, which he likes very well to do, he will soon have a leg off unless cracked on the pate.

The presence of this reptile on the island is the reason there are no large mud rupes to be found there at present. The curling sword in luck ages having taken off legs faster than they could be created.

The average person trims off of the third-party part of an inch from each finger nail a week, or about an inch and a half every year. The average of human life over the world is 40 years, and the average of people in the world who, therefore, will live an average 28,400 miles of finger nail in a generation.

The Mexican government virtually controls elections in that country. A man awoke one morning to find on his desk an official notice of his election to office, that being the first intimation that his name was mentioned as a candidate. The government had nominated and elected him.

A lady writing to the London newspapers from a fashionable West End address urges society dames to abstain from drinking champagne during Lent and give the money thus saved to the poor. The appeal is a curious one, and the Londoner upon which it is countenanced based its success by fattening to the rich women of England.

A large dirigible balloon, intended to make headway against air currents of 28 miles an hour, is being made in France. It will be similar in form to the La France of 1884-5, but larger—280 feet in length and 43 feet in its greatest diameter. It will weigh 60 pounds per horse power, and will be propelled by a screw in front with a rudder behind.

As regards hospitals, the teeming millions of London can count upon only one bed per 1,000—a proportion which is unique among the large towns of Great Britain. Glasgow, Newcastle, Wolverhampton, Birmingham, and London, 1,000; Edinburgh, 354; Dublin, 67; Norwich, Belfast, Brighton, Liverpool, Manchester and Bristol have an average of 212 beds per 1,000.

Dogs are slaughtered for culinary purposes in considerable numbers at Munich. The friend of man comes to be only disguised as sausage, but dressed in various forms and with diverse sauces, without any attempt to incognito. This department in gastronomy is said to have been introduced by the numerous Italian laborers who have settled in the Bavarian capital.

The best tobacco bags are made not of leather or rubber, but of the pouch of a pelican. The moisture in the membrane which fills out the lower bill of the pelican is soft and thin, of very fine texture, easily tanned, and when dressed, makes a beautiful article for leather, possessing the quality of being as impervious to water as India rubber. Tobacco kept in it will never become dry, but retains its sweetness and aroma longer than when preserved in tin foil.

There is a little reptile belonging to Madagascar known as the scutiger snake, that is the curling sword. Running along the back from head to tail is a blackish, horny substance, which bends with the convolutions of the sword as readily as would a well tempered steel spring and throughout its entire length it bears an edge hewn as a flint and sharp as a razor. They are not poisonous, but when one of them springs on a man, which he likes very well to do, he will soon have a leg off unless cracked on the pate.

The presence of this reptile on the island is the reason there are no large mud rupes to be found there at present. The curling sword in luck ages having taken off legs faster than they could be created.

On an average about three tongs are sent to jail every morning for drunkenness, where they remain in comfort until their sentence expires, when they get drunk and go back again. When will the council provide a stone pile to exercise these gentlemen on? They won't think going to jail is such a snap then.

There were seven plain drunks before the municipal court on Monday, two on Tuesday, three on Wednesday and four on Thursday, all of whom were fined \$7.40 or sentenced to seven days in jail. Out of the sixteen arrested in four days five paid their fine and eleven are being boarded by the city without any return. How soon will the council provide a stone pile for these lazy louts to earn their board on? We hope very soon.

Frank Hartley, for many years one of the leading business men and at one time mayor of this city, has been here for several days past renewing old acquaintances and visiting relatives. Mr. Hartley with his family is now located at Auburn, California, where he is interested in gold mining operations. He is now in the east for the purpose of negotiating the sale of stock of the mine he is connected with. He is in good health, and seems to think that he now has something that will make him independently rich.

Wm. Allen, a farmer who lives on a ranch about 25 miles north of the city, came into town on Tuesday with two children who were seriously ill. He stopped at the Stratton house and called a physician who pronounced the cases genuine diphtheria. The children were at once removed to the home of Mrs. Lindsay, a widow lady who lives on Fifth street south, where they are quarantined. Mr. Allen returned home on Wednesday and came back to town yesterday with another child stricken with the disease. One of the children at this writing is recovering, but the other two are in a precarious condition.

On Wednesday evening Officer Demouch arrested two young girls, Lorraine Wood and Bessie Winters, aged respectively twelve and thirteen years, in the back room of the Last Turn saloon where they claim they had been sent by Jack Burns with whom they were riding earlier in the evening. They also state that intoxicating liquor was given them. They were alone however when arrested. The following morning Louis Wood, the father of one of the girls, made a complaint against his daughter of incorrigibility and she will be sent to the state reform school. The Winters girl is still in custody, and an effort will be made to send her to the reform school also, notwithstanding her mother opposes such action.

Cutting Affray.

On Monday evening a dispute arose in Jule Jameson's saloon between the proprietor and a man by the name of Harry Riley concerning some change. Riley, claiming there was something due him, which the proprietor denied. Riley, who was badly intoxicated, became greatly enraged and swore he would "do up" Mr. Jameson. He went out but returned in a few moments with an open jack knife concealed in his overcoat pocket. He went up to Mr. Jameson, and before the gentleman could prevent it, he cut several deep gashes in his face, which, while not dangerous, will leave ugly looking scars. Dr. McPherson was called and dressed the wounds and Mr. Jamison is getting along nicely. He had the satisfaction of knocking the fellow down, as soon as he recovered from the surprise of the attack upon himself. Riley has been employed for some time just in Brinkman's restaurant on Fifth street. Mr. Jamison has made no complaint against him, but he was before the municipal court on Wednesday charged with drunkenness, for which he was fined \$7.40 or ten days in jail.

Deaths.

Deceased has lived in this city for many years being employed while in health at the N. P. shops. He leaves a wife to mourn his loss.

Arlie S. Bain, son of Mr. and Mrs. Geo. Bain, who live at 144 5th street south, died on Friday, March 10th, of spinal meningitis, after an illness of two days. He was 5 years and 7 months old. The funeral occurred at the house on the 13th, Rev. E. G. Sanderson conducting the services. This is the second son Mr. and Mrs. Bain have lost during the past month. They have the sympathy of many friends in their affliction.

A. F. Altwine, who lives on a farm about eight miles north of the city on the Gull River road, died at the Lumberman's Hospital on Tuesday the 14th inst., of intestinal obstruction, aged 39 years. He became ill the last of last week, and was brought to the hospital here for treatment, but he was beyond all medical aid on his arrival. He was well known in the city, having resided here for several years, during a part of which time he conducted the Brainerd Steam Laundry. He was a member of Unity Lodge of Odd Fellows, of this city, by which order his funeral services were conducted. The funeral was held yesterday at the Baptist church, Rev. J. A. Jenkins officiating. He leaves a wife to mourn his loss.

D. M. Clark & Co. have just received a large line of lace curtains, which they will retail at from \$1.50 to \$8.

**SUGAR AND BEAUTY.**

How the Consumption of Sweets Has Affected the Form of Women.

The relationship between sugar and beauty may seem rather remote at first, but after all the dependence of beauty on this sweet is intimate. People who have no fat show the projections of their bones through the muscles and skin. The typical "Uncle Sam" is a rawboned, lean fellow, and in early days this was the typical Yankee—that is, a person without fat. Now, sugar is composed of 96.7 per cent. of carbohydrates, or the material that goes to give heat and vital force, and the surplus of this that gets into the body, above what is required for immediate use, is stored up as fat.

In the olden time people ate little sugar; indeed they had little or no money to pay for it, and their fat had to come from the meats that they ate, possibly from salt pork, admitting that fat is stored up in the body as such, which is denied by good authorities.

It can readily be seen what the effect would be when a people began to increase their fat forming food beyond the point of its combustion in the body. Sugar being a highly concentrated food of this character, it is capable of putting many pounds of fat on the animal body if eaten regularly and not necessarily in large quantities, being eaten, as it is, in conjunction with the starchy foods. The 23,000,000 of people in the United States in 1851 ate 602,000,000 pounds of sugar, or 26 pounds apiece on the average. In 1884 the 53,000,000 of people ate nearly 3,000,000,000 pounds, or 54 pounds apiece on the average.

The average per capita consumption more than doubled within thirty-three years, and in getting this average we must include a very large portion of the population that consumes little more sugar per capita than it ever did on account of poverty, infancy and other causes, so that the consumption among these people who are left to account for the great increase in the average must be much larger than a pound a week, which is now less than the general average.

When the water in a river is high, a little addition to it makes a freshet. So it is with the sugar eaten. The starch they eat makes necessary the storing up of a considerable portion of the sugar they eat as fat. This is what rounds out the body and the features, and has made over the old time lean Yankee into a broader man and woman physically.

With this has come the beauty of gracefully curved lines and the obliteration of sharpness and angles. Squalor and wretchedness do not go with well rounded bodies and features of pleasing lines, because not enough food that makes fat after enough has been burned as fuel is eaten. A great deal of the beauty of fair women is made up of fat, and to this sugar largely contributes.—Good Housekeeping.

BY THE USE OF DR. LESLIE E. KEELEY'S DOUBLE CHLORIDE OF GOLD REMEDIES.

Indorsed by progressive physicians, pharapies and divines, including Dr. J. C. Watson, of Brooklyn, Tennessee, who recently visited Dwight and addressed the 700 patients in line. The United States government has adopted these remedies for use in all States and National Soldiers' Homes. Carefully kept records prove 96 per cent. permanent cures; 66,000 homes already made happy. The objectionable features of addiction to narcotics removed. No hospital; no restriction. All necessary liquors supplied during treatment. Patients are simply residents like ourselves. Terms \$25 per week; board extra, \$5 in 105 per week, to suit purse and inclination. Good accommodations, including bath, at the Institute.

**NOTE OF WARNING.**

To the Public:

As a matter of justice to ourselves and to the reputation of Dr. Leslie E. Keeley's Double Chloride of Gold Remedies for the cure of the Liquor, Opium, Morphine and Tobacco Glueases, and Neurasthenia, we warn the public that these remedies are used by no institution or sanitarium in the United States, except those established by our company under the uniform name of "THE KEELEY INSTITUTE."

All others claiming to use our remedies are frauds and impostors.

We have now sixty Keeley Institutes established in various parts of the United States, and the Keeley Remedies sold. We, however, caution all to examine well and know that they are dealing with GENUINE REPRESENTATIVES, authorized by us, before taking treatment or purchasing remedies.

The misleading establishments use the name of "Inchicks of Gold" or similar titles. The newspapers often fail to discriminate sufficiently to know that they are impostors. They are not public welfare, and hence this warning.

We desire inspection of our Institution and in the correspondence, which is strictly confidential. Respectfully Yours,

The grocery firm of P. J. Arnold & Co. doing business in East Brainerd, has been dissolved by mutual consent, P. J. Arnold retiring. The business will be conducted hereafter by Mr. John Arnold on a strictly cash basis.

Four lumbermen were up before the municipal court yesterday morning charged with drunkenness. They had \$7.40 each which they paid. They were celebrating there return to civilization after a winter spent in the woods.

Next Sunday morning and evening Rev. W. L. Hobart, returned missionary from China, will preach in the Methodist church. He will be able to speak from experience of the work of Christian missions in the Celestial Empire.

There will be a box social on Tuesday evening (March 21st) at the Y. M. C. A. parlor. Everybody is expected to bring a box containing lunch for two. All are cordially invited. The young people are especially requested to be present.

On an average about three tongs are sent to jail every morning for drunkenness, where they remain in comfort until their sentence expires, when they get drunk and go back again. When will the council provide a stone pile to exercise these gentlemen on? They won't think going to jail is such a snap then.

There were seven plain drunks before the municipal court on Monday, two on Tuesday, three on Wednesday and four on Thursday, all of whom were fined \$7.40 or sentenced to seven days in jail. Out of the sixteen arrested in four days five paid their fine and eleven are being boarded by the city without any return. How soon will the council provide a stone pile for these lazy louts to earn their board on? We hope very soon.

Frank Hartley, for many years one of the leading business men and at one time mayor of this city, has been here for several days past renewing old acquaintances and visiting relatives. Mr. Hartley with his family is now located at Auburn, California, where he is interested in gold mining operations. He is now in the east for the purpose of negotiating the sale of stock of the mine he is connected with. He is in good spirits, and seems to think that he now has something that will make him independently rich.

The ranch at Eagle Lake on the Pine River road owned by Geo. Harris was destroyed by fire on Saturday evening last between seven and eight o'clock. The loss will be over \$2,000 with no insurance whatever.

Prof. Wilson, county Supt. of schools, conducted the spring examination for teachers at the court house on Wednesday and Thursday of last week, the following persons taking the examinations: Misses Rosa Arnold, Ruby Prentice, Olive Knevet, Florence Merritt, Lillian Prince, Beth Prince, Nora Coleman, Maggie Risk, Inez Eastman, Kate Gabrio, Alice Hurley, Lizzie Kelly, Ida Grant and Clara Small of Brainerd, and Lon Coleman, of Bay Lake, Jennette Vinje, of Deerwood, and Mrs. Eric Cady, of Pillager.

Wm. Allen, a farmer who lives on a ranch about 25 miles north of the city, came into town on Tuesday with two children who were seriously ill. He stopped at the Stratton house and called a physician who pronounced the cases genuine diphtheria. The children were at once removed to the home of Mrs. Lindsay, a widow lady who lives on Fifth street south, where they are quarantined. Mr. Allen returned home on Wednesday and came back to town yesterday with another child stricken with the disease. One of the children at this writing is recovering, but the other two are in a precarious condition.

On Wednesday evening Officer Derocch arrested two young girls, Lorraine Wood and Bessie Winters, aged respectively twelve and thirteen years, in the back room of the Last Turn saloon where they claim they had been sent by Jack Burns with whom they were riding earlier in the evening. They also state that intoxicating liquor was given them. They were alone however when arrested. The following morning Louis Wood, the father of one of the girls, made a complaint against his daughter of incontinence and she will be sent to the state reform school. The Winters girl is still in custody, and an effort will be made to send her to the reform school also, notwithstanding her mother opposes such action.

**Cutting Affray.**

On Monday evening a dispute arose in Julie Jamison's saloon between the proprietor and a man by the name of Harry Riley concerning some change. Riley claiming there was something due him, which the proprietor denied. Riley, who was badly intoxicated, became greatly enraged and swore he would "do up" Mr. Jamison. He went out but returned in a few moments with an open jack knife concealed in his overcoat pocket. He went up to Mr. Jamison, and before the gentleman could prevent it, he cut several deep gashes in his face, which, while not dangerous, will leave ugly looking scars. Dr. McPherson was called and dressed the wounds and Mr. Jamison is getting along nicely. He had the satisfaction of knocking the fellow down, as soon as he recovered from the surprise of the attack upon himself. Riley has been employed for some time past in Brinkman's restaurant on Fifth street. Mr. Jamison has made no complaint against him, but he was before the municipal court on Wednesday charged with drunkenness, for which he was fined \$7.40 or ten days in jail.

**Deaths.**  
Roy Bartle, son of Mr. and Mrs. Henry Bartle, died on Monday, the 13th inst., at the residence of his parents at No. 66, Ninth street south, of diphtheria, aged five years. The funeral services were held at ten a. m. on Wednesday, Rev. Ware of the Presbyterian church officiating.

Minnie C. Goid, daughter of Mr. and Mrs. Am. Gould, died at their home 30 miles north of this city on the Pine River road, on Monday March 13th, of intestinal obstruction, aged five years. Her remains were buried at Pine River on Wednesday, Rev. Jenkins, of this city, conducting the services.

Earl Hawley, who lives at the corner of Tenth and Kingwood streets, died on Tuesday, March 10th, of consumption, aged 39 years. The funeral was held at the Catholic church on Sunday afternoon, the 12th inst., Rev. Father Lynch conducting the services. Deceased has lived in this city for many years being employed while in health at the N. P. shops. He leaves a wife to mourn his loss.

Arlie S. Bain, son of Mr. and Mrs. Geo. Bain, who live at 144 5th street south, died on Friday, March 10th, of spinal meningitis, after an illness of but two days. He was 5 years and 7 months old. The funeral occurred at the house on the 13th, Rev. E. G. Sanderson conducting the services. This is the second son Mr. and Mrs. Bain have lost during the past month. **Change of Time.**  
A new and improved train service on the Northern Pacific road, from the head of the lakes to Grand Forks, will be inaugurated at an early date, in fact, probably, by April 1st. By this arrangement a through train will leave Duluth and West Superior about 8 o'clock in the evening instead of 3.50, as at present, and will run through to Grand Forks without change. At the same time a through local train will leave Minneapolis and St. Paul, and connect with the west bound train at Grand Forks, by the loop at Brainerd. Later still a through fast mail will leave Minneapolis and St. Paul and run through to Staples, making stops only at Anoka, St. Cloud and Little Falls, until it connects with the Duluth train at Staples.

The above telegram appears in the Minneapolis papers, and as far as the change of time is concerned it is correct and will take place on the 1st of April. Should the trains run as indicated it means the taking off of the Brainerd morning and evening train and will leave us with passenger trains to and from the cities at midnight. It is probable in that event that the Morris train will be regulated so that Brainerd people can reach Little Falls in time to catch the morning train for St. Paul.

**The Yarmasters' Ball.**  
We print the following at the request of the committee of invitations for the yarmasters' ball to be given in this city April 3d:

"We find there are several people who do not receive invitations to the Yarmasters' Ball at Brainerd. It is a very trying task to address three or four hundred invitations to different people and miss none. We tried hard to reach every one, but find that we failed on some of our best friends. Kindly consider this an invitation, and do not fail to favor us with your company on that evening. The door to this sugar land will not be open to you will be pleased to associate with. Arrangements have been completed for a special train to leave Staples 6.45 a. m. which will return from Brainerd after the ball is over. A special coach will be handled on Train No. 5 from St. Paul, and will return at 5 a. m. on Train No. 6, to accommodate parties from the Twin Cities and Little Falls. A large crowd is expected from St. Paul, and a general good time is insured. Music by Whitford's full orchestra. Floor committees and supper will appear on programs.

**A VALUABLE GIFT.**

The present high price of pork has greatly stimulated the interest in corn growing. One of the first factors in making a good crop of corn is good seed. The best corn, like the best stock, has a pedigree. The Farmers' Tribune, desiring to extend the circulation of the best weekly news and agricultural paper, offers one quart of the Farmers' Tribune pedigreed seed corn free to every new subscriber who sends \$1 for one year's subscription, between Feb. 15th and May 1st, 1893, if one of these slips is sent with the subscription.

**SUGAR AND BEAUTY.**  
How the Consumption of Sweets Has Affected the Form of Women.  
The relationship between sugar and beauty may seem rather remote at first, but after all the dependence of beauty on this sweet is intimate. People who have no fat show the projections of their bones through the muscles and skin. The typical "Uncle Sam" is a rawboned, lean fellow, and in early days this was the typical Yankee—that is, a person without fat. Now, sugar is composed of 96.7 per cent. of carbohydrate, or the material that goes to give heat and vital force, and the surplus of this that gets into the body, above what is required for immediate use, is stored up as fat.

In the olden time people ate little sugar; indeed they had little or no money to pay for it, and their fat had to come from the meals that they ate, possibly from salt pork, admitting that fat is stored up in the body as such, which is denied by good authorities.

It can readily be seen what the effect would be when a people began to increase their fat forming food beyond the point of its combustion in the body. Sugar being a highly concentrated food of this character, it is capable of putting many pounds of fat on the animal body if eaten regularly and not necessarily in large quantities, being eaten, as it is, in conjunction with the starchy foods. The 23,000,000 of people in the United States in 1891 ate 602,000,000 pounds of sugar, or 26 pounds apiece on the average. In 1884 the 55,000,000 of people ate nearly 5,000,000,000 pounds, or 94 pounds apiece on the average.

The average per capita consumption more than doubled within thirty-three years, and in getting this average we must include a very large portion of the population that consumes little more sugar per capita than it ever did on account of poverty, infancy and other causes, so that the consumption among these people who are left to account for the great increase in the average must be much larger than in a pound a week, which is now less than the general average.

When the water in a river is high, a little addition to it makes a fresher. So it is with the sugar eaters. The starch they eat makes necessary the storing up of a considerable portion of the sugar they eat as fat. This is what rounds out the body and the features, and has made over the old time lean Yankee into broader men and women physically. With this has come the beauty of gracefully curved lines and the obliteration of sharpness and angles. Square and wretchedness do not go with well rounded bodies and features of pleasing lines, because not enough food that makes fat after enough has been burned as fuel is eaten. A great deal of the beauty of fair women is made up of fat, and this sugar largely contributes.—Good Housekeeping.

BY THE USE OF DR. LESLEY E. KEELEY'S  
DOUBLE COLORING or GOLD REMEDIES.  
Indorsed by progressive physicians, philanthropists and divines, including Dr. T. DeWitt Talmage, of Brooklyn, Tennessee, who recently visited Dwight and addressed the 70 patients in line. The United States government has adopted these remedies for use in all States and National Soldiers' Homes. Carefully kept records prove 96 per cent. permanent cures; 66,000 homes already made happy. The objectionable features of sanitarian treatment removed. No hospital; no restriction. All necessary liquors supplied during treatment. Patients are simply residents like ourselves. Terms \$25 per week; board extra, \$7 to \$15 per week, to suit purse and inclination. Good accommodations, including bath, at the Institute.

**NOTE OF WARNING.**  
To the Public:  
As a matter of justice to ourselves and to the reputation of Dr. Leslie E. Keeley's Double Coloring of Gold Remedies for the cure of the Liquor, Opium, Morphine and Tobacco Habits, and Neurasthenia, we warn the public that these Remedies are used by no institution or sanitarian in the United States, except those established by our company under the uniform name of "The Keeley Institute."

All others claiming to use our remedies are frauds and impostors.  
We have now sixty Keeley Institutes established in various parts of the United States, where the Keeley Treatment is administered, and the Keeley Remedies sold. We, however, caution all to examine well and know that they are dealing with genuine Keeley Remedies, authorized by us, before taking treatment or purchasing remedies.

The misleading establishments use the name of "Bottle of Gold" or similar titles. The newspapers often fail to discriminate sufficiently to know that they are impostors. This is a matter of public welfare, and hence this warning.

We desire inspection of our Institutes and to receive correspondence, which is strictly confidential.

## Proceedings Cass County Commissioners.

Meeting held March 6th, 1893.

All members present.

Minutes of previous meeting were read and approved as read.

Petition of citizens of town 134-31 to lay out a road was favorably received, hearing on same to be had April 3rd, 1893.

The following bills were allowed:

Phillip Hunsinger, Road overseer Town 134 range 31	3 80
J. J. Ellis, attending 1 meeting	11 40
W. W. Bryant, attending meeting.....	8 40
Liquor license of Chas. Kinkili was on motion transferred to Geo. Barclay.	
Board adjourned until the first Monday in April.	

The state Agricultural Society has decided to hold no Fair this year. As a result the Board of directors of the Minneapolis Exposition have concluded to combine some of the best features of the fair with their Exposition, and have appropriated a very liberal amount of money to be paid as premiums for the exhibits of the products of Minnesota farms, gardens and dairys. A special feature will be the large premiums given to the County Society Alliance or farmers' Club making the largest and best display or collection of culinary or stock vegetables or other products grown or produced by residents of any one county; also the most unique, artistic and attractive display of products, and to the individual making collective or single exhibits. These several departments will be under the auspices of committees selected from the State Horticultural Society, State Dairy Association, and State Beekeepers Association, who will also assist in preparing the premium list, which will be issued about May 1st.

The Exposition will furnish ample and commodious space and all the necessary facilities for making these exhibits.

## Notes from Legislative Hall.

The legislative bodies have come to the conclusion that hard work will have to be done in order to finish the business of the session in time allotted, the fact being that if no time is wasted between now and the 18th of April, the last day the lawmakers can draw their salary for, there will be many measures that will go down for lack of time. There has been 445 bills introduced in the senate against 780 in the house up to the present time.

The house has passed a resolution fixing on April tenth as the last day of the session, but it is not thought the senate will concur in it, and that the present session will run the full length of time.

The free text book bill was a special order on Tuesday and was recommended to pass after a very lively and interesting debate.

The special committee of the house of which R. C. Dunn, is chairman, and W. A. Fleming a member, appointed to investigate the recent sale of pine in Mule Lake county at \$2.00 per thousand at private sale by the state auditor, when there were men ready to bid \$4 and \$5 for the same stumpage, is making things exceedingly interesting for that official, and will probe the matter to the bottom. There will be some interesting matters brought to light before the matter is settled.

The new state capitol bill which was to have been a special order for Wednesday, was postponed for one week through the persistent efforts of Representative Fleming, who did not desire to vote on the matter until he had fully investigated the matter and consulted his constituents. The bill provides for an appropriation of \$3,000,000 and the appointment of a commission to select a site within three-quarters of a mile of the present one for the new state building.

The bill for the taxation of railroad lands has again been postponed by the senate and will come up on Tuesday next at which time it will be disposed of. The indications are that the senate will not pass it, although there may be a change in the sentiment before the final vote is taken.

The proposed Chicago trip by the legislature appears to be having a hard time of it, and it will not be taken until after the session, if at all. Gov. Nelson has flatly refused to go and the house will be governed by his action.

St. Paul March 9th.

## An Age of Pneumonia.

Slight attacks of cold often develop into Pneumonia. Statistics show that this disease is rapidly increasing in our country and is generally accompanied with fatal results. Cubeb Cough Cure will prevent Pneumonia if taken in time. It is a disease that develops suddenly, with but little warning to the patient, and if not fatal, leaves the system shattered and exhausted.

Cubeb Cough Cure prevents Pneumonia, it instantly relieves the depression, stops exhaustion by relieving the patient from severe coughing spells, keeps up the vitality, does not nauseate and thereby aids nature to restore itself. Can people afford to take any chances when Cubeb Cough Cure is within their reach in 25 and 50 cents bottles?

## Council Meeting.

The council met in regular session last Monday evening, all the aldermen being present except Alderman Anderson of the Fourth ward.

Reports of the clerk of the municipal court, chief of police, and Supt. of electric lights were read and approved.

Report of building inspector in regard to frame building erected on lot 7 block 47 was referred to fire committee.

On motion the resignation of M. N. Geiser as first engineer of the electric light plant was read and accepted.

On motion the city pay roll and electric light pay roll and other claims against the city were allowed.

Electric light committee reported on bill of L. J. Call for \$100. that he be allowed \$50. per annum from Dec. 1st, 1892 to March 1st, 1893, and on motion report of committee was adopted and a warrant was ordered drawn for \$12.50.

Bill of J. J. Howe for \$180 was referred to purchasing committee.

Bill of members of fire department for work done at the Gray & Wheatley fire was referred to fire committee, and bill of M. Hagberg for \$10.30 was referred to purchasing committee.

Bill of C. Cross for \$5.00 was referred back to Mr. Cross.

On motion a warrant for \$400.00 was ordered drawn in favor of Andrew & Wood in part payment for their bill of oak lumber.

Motion made and carried that the matter of abatement of sidewalk tax of W. H. Thompson be referred to the street committee.

On motion the city attorney was allowed an assistant in framing the index of the city charter after the March term of court, if he deemed one necessary.

Motion made and carried that the form of lease presented by the electric light committee be adopted, and the mayor and city clerk were authorized to execute it on the part of the city.

On motion the mayor was again requested to reduce his police force by one man.

On motion the communications received from electric light companies concerning the enlarging of the plant, were referred to the joint committee for further investigation.

Resignation of J. L. Camp, as Health officer, was withdrawn.

Ordinance No. 105, relating to cutting of ice below sewers in the city limits for sale in the city, had its first and second readings, and was passed without a dissenting vote.

On motion the clerk was instructed to notify R. R. Wise, J. P. Saunders, A. Z. Kenslow and Chas. Baker that ordinance No. 105 had been passed.

Ordinance No. 106, amending ordinance No. 86, relating to coal weighers and weights, received its first and second readings and was passed without a dissenting vote.

Application of J. Kelleher to build a one story brick veneered building on lot 7, block 47 was granted.

Applications and bonds of M. Cullen & Co., Arthur Reinthal and John A. Denis, for liquor licenses were granted.

Contract and bond of Halstead & Penneil, city printers, were read and approved.

Bonds of Werner Hemstead and Jas. McMurtry, as sinking fund commissioners were approved.

The matter of piling up the oak lumber was referred to street committee.

The matter of cleaning up the alleys was left in the hands of the health committee in conjunction with the board of health.

Council adjourned.

## Notice To Teachers.

Public teacher's examination will be held in the Grand Jury room in the Court House in Brainerd on Feb. 22 1893, March 8 and 9, and April 5th and 6th.

J. A. Wilson Supt. Schools.

Board adjourned until the first Monday in April.

The state Agricultural Society has decided to hold no Fair this year. As a result the Board of directors of the Minneapolis Exposition have concluded to combine some of the best features of the fair with their Exposition, and have appropriated a very liberal amount of money to be paid as premiums for the Exhibits of the products of Minnesota farms, gardens and dairys. A special feature will be the large premiums given to the County Society Alliance or farmers' Club making the largest and best display or collection of culinary or stock vegetables or other products grown or produced by residents of any one county; also the most unique, artistic and attractive display of products, and to the individual making collective or single exhibits. These several departments will be under the auspices of committees selected from the State Horticultural Society, State Dairy Association, and State Beekeepers Association, who will also assist in preparing the premium list, which will be issued about May 1st.

The Exposition will furnish ample and commodious space and all the necessary facilities for making these exhibits.

## Notes from Legislative Hall.

The legislative bodies have come to the conclusion that hard work will have to be done in order to finish the business of the session in time allotted, the fact being that if no time is wasted between now and the 18th of April, the last day the lawmakers can draw their salary for, there will be many measures that will go down for lack of time. There has been 445 bills introduced in the senate against 780 in the house up to the present time.

The house has passed a resolution fixing on April tenth as the last day of the session, but it is not thought the senate will concur in it, and that the present session will run the full length of time.

The free text book bill was a special order on Tuesday and was recommended to pass after a very lively and interesting debate.

The special committee of the house of which R. C. Dunn, is chairman, and W. A. Fleming a member, appointed to investigate the recent sale of pine in Mule Lakes county at \$2.00 per thousand at private sale by the state auditor, when there were men ready to bid \$4 and \$5 for the same stumpage, is making things exceedingly interesting for that official, and will probe the matter to the bottom. There will be some interesting matters brought to light before the matter is settled.

The new state capitol bill which was to have been a special order for Wednesday, was postponed for one week through the persistent efforts of Representative Fleming, who did not desire to vote on the matter until he had fully investigated the matter and consulted his constituents. The bill provides for an appropriation of \$3,000,000 and the appointment of a commission to select a site within three-quarters of a mile of the present one for the new state building.

The bill for the taxation of railroad lands has again been postponed by the senate and will come up on Tuesday next at which time it will be disposed of. The indications are that the senate will not pass it, although there may be a change in the sentiment before the final vote is taken.

The proposed Chicago trip by the legislature appears to be having a hard time of it, and it will not be taken until after the session, if at all. Gov. Nelson has flatly refused to go and the house will be governed by his action.

St. Paul March 9th.

## An Age of Pneumonia.

Slight attacks of cold often develop into Pneumonia. Statistics show that this disease is rapidly increasing in our country and is generally accompanied with fatal results. Cubeb Cough Cure will prevent Pneumonia if taken in time. It is a disease that develops suddenly, with but little warning to the patient, and if not fatal, leaves the system shattered and exhausted.

Cubeb Cough Cure prevents Pneumonia, it instantly relieves the depression, stops exhaustion by relieving the patient from severe coughing spells, keeps up the vitality, does not nauseate and thereby aids nature to restore itself. Can people afford to take any chances when Cubeb Cough Cure is within their reach in 25 and 50 cents bottles?

In olden times in New England it was supposed that the first unmarried person of the other sex whom one met on St. Valentine's morning while out walking was a destined wife or a destined husband.

The Daughters of the Texan Revolution have started a movement for their state to inclose the battlefield of San Jacinto, and to erect a monument to the memory of the soldiers who are buried there.

Lord Chief Justice Coleridge of England will probably visit the Chicago exposition. If so, Uncle Sam will have a chance to repay the courtesies extended by his lordship to Justice Harlan on his recent visit to London.

Joseph Schlessor of Oakland, Cal., thinks he has discovered a way to make Arctic travel by means of a device which puts a petroleum engine on a sled and makes the engine drive a series of spurs which take hold of the ice and force the sled forward.

A silver spoon, which was lost by Horace Woodward of Danville, Conn., is now eighty years old, and has been six years old, has been restored to him, he claims. The spoon was found at the bottom of a well, which was being cleaned out.

The little flag that Gen. Walker bore at the head of his Quikote expedition into Nicaragua is in the possession of a San Francisco official. It is of blue and white silk and muslin, with a red and white border, and is embroidered the initials "W. B.", signifying "Walker's Battalion."

John Loure, who recently died in a penitential condition in a New York hospital, was about one inch from the finger nail a week, or about an inch and a half every year. The average of human life all over the world is 40 years. There are 1,300,000 people in the world who, therefore, waste on an average 28,400 miles of finger nail in a generation.

The Mexican government virtually controls elections in that country. A man awoke one morning to find on his desk an official notice of his election to office, that being the first intimation that his name was mentioned as a candidate. The government had nominated and elected him.

A lady writing to the London newspapers from a fashionable West End address urges society dames to abstain from drinking champagne during Lent and give the money thus saved to the poor. The appeal is a curious one, and the assumption upon which it is couched is hardly a source of flattering to the rich women of England.

A large dirigible balloon, intended to make headway against air currents of 28 miles an hour, is being made in France. It will be similar in form to the La France of 1884-5, but larger—greater in length and 43 feet in its greatest diameter. It will weigh 600 pounds, but have more power, and will be propelled by a screw in front with a rudder behind.

As regards hospitals, the teeming thousands of London can count upon only one bed for 1,000—a proportion which is unique among the large towns of Great Britain. Glasgow, Newcastle, Wolverhampton have 3-12 beds per 1,000; Edinburgh, 33-34; Dublin, 41-2; Norwich, Belfast, Brighton, Liverpool, Manchester and Bristol have an average of 21-2 beds per 1,000.

Dogs are slaughtered for culinary purposes in considerable numbers at Munich. The friend of man comes to table not only disguised as sausages, but dressed in various forms and with divers sauces, without any attempt to resort to investigation. This departure in gastronomy is said to have been introduced by the numerous Italian laborers who have settled in the Bavarian capital.

The best tobacco bags are made not of leather or rubber, but of the pouch of a poisonous, but when eaten are very well to do, he will soon have a leg off unless cracked on the pate. Some snake specialists claim that the presence of this reptile on the island is the reason there are no large quail there, but that the quail are taken off legs faster than they can be created.

The Y. P. S. C. E. of the Congregational church will have charge of the meeting at the Y. M. C. A. Sunday afternoon at 3:30. Everybody is cordially invited to be present.

Schillings Minstrel appeared at the opera house last Friday night to a crowded house, and gave an excellent performance. They are one of the cleanest and best minstrel companies traveling.

The grocery firm of P. J. Arnold & Co. doing business in East Brainerd, has been dissolved by mutual consent, P. J. Arnold retiring. The business will be conducted hereafter by Mr. John Arnold on a strictly cash basis.

Four lumbermen were up before the municipal court yesterday morning charged with drunkenness. They paid \$7.40 each which they paid. They were celebrating their return to civilization after a winter spent in the woods.

Next Sunday morning and evening Rev. W. L. Hobart, returned missionary from China, will preach in the Methodist church. He will be able to speak from experience of the work of Christian missions in the Celestial Empire.

There will be a box Social on Tuesday evening (March 21st.) at the Y. M. C. A. parlors. Everybody is expected to bring a box containing lunch for two. All are cordially invited. The young people are especially requested to be present.

On an average about three toughs are sent to jail every morning for drunkenness, where they remain in comfort until their sentence expires, when they get drunk and go back again. When will the council provide a stone pile to exercise these gentlemen on? They won't think going to jail is such a snap then.

There were seven plain drunks before the municipal court on Monday, two on Tuesday, three on Wednesday and four on Thursday, all of whom were fined \$7.40 or sentenced to seven days in jail. Out of the sixteen arrested in four days five paid their fine and eleven are being boarded by the city without any return. How soon will the council provide a stone pile for these lousy louts to earn their board on? We hope very soon.

Frank Hartley, for many years one of the leading business men and at one time mayor of this city, has been here for several days past renewing old acquaintances and visiting relatives. Mr. Hartley with his family is now located at Auburn, California, where he is interested in gold mining operations. He is now in the east for the purpose of negotiating the sale of stock of the mine he is connected with. He is in good spirits, and seems to think that he now has something that will make him independently rich.

The ranch at Eagle Lake on the Pine River road owned by Geo. Harris was destroyed by fire on Saturday evening last between seven and eight o'clock. The loss will be over \$2,000 with no insurance whatever.

Prof. Wilson, county Supt. of schools, conducted the spring examination for teachers at the court house on Wednesday and Thursday of last week, the following persons taking the examinations: Misses Rosa Arnold, Ruby Prentice, Olive Knevet, Florence Merritt, Lillian Prince, Beth Prince, Nora Coleman, Maggie Risk, Inez Eastman, Kate Gabio, Alice Harley, Lizzie Kelly, Ida Grant and Clara Small of Brainerd, and Lon Coleman, of Bay Lake, Jeannette Vinje, of Deerwood, and Mrs. Edie Cady, of Pillager.

Wm. Allen, a farmer who lives on a ranch about 25 miles north of the city, came into town on Tuesday with two children who were seriously ill. He stopped at the Stratton house and called a physician who pronounced the cases genuine diphtheria. The children were at once removed to the home of Mrs. Lindsay, a widow lady who lives on Fifth street south, where they are quarantined. Mr. Allen returned home on Wednesday and came back to town yesterday with another child stricken with the disease. One of the children at this writing is recovering, but the other two are in a precarious condition.

On Wednesday evening Officer Derocch arrested two young girls, Lorraine Wood and Bessie Winters, aged respectively twelve and thirteen years, in the back room of the Last Turn saloon where they claim they had been sent by Jack Burns with whom they were riding earlier in the evening. They also state that intoxicating liquor was given them. They were alone however when arrested. The following morning Louis Wood, the father of one of the girls, made a complaint against his daughter for incorrigibility and she will be sent to the state reform school. The Winters girl is still in custody, and an effort will be made to send her to the reform school also, notwithstanding her mother opposes such action.

## Cutting Affray.

On Monday evening a dispute arose in Jule Jameson's saloon between the proprietor and a man by the name of Harry Riley concerning some change, Riley claiming there was something due him, which the proprietor denied. Riley, who was badly intoxicated, became greatly enraged and swore he would "do up" Mr. Jameson. He went out but returned in a few moments with an open jack knife concealed in his overcoat pocket. He went up to Mr. Jameson, and before the gentleman could prevent it, he cut several deep gashes in his face, which, while not dangerous, will leave ugly looking scars. Dr. McPherson was called and dressed the wounds and Mr. Jameson is getting along nicely. He had the satisfaction of knocking the fellow down, as soon as he recovered from the surprise of the attack upon himself. Riley has been employed for some time in Brinkman's restaurant on Fifth street. Mr. Jameson has made no complaint against him, but he was before the municipal court on Wednesday charged with drunkenness, for which he was fined \$7.40 or ten days in jail.

## Deaths.

Roy Bartle, son of Mr. and Mrs. Henry Bartle, died on Monday, the 13th inst., at the residence of his parents at No. 66, Ninth street south, of diphtheria, aged five years. The funeral services were held at ten a. m. on Wednesday, Rev. Ware, of the Presbyterian church officiating.

Minnie C. Gould, daughter of Mr. and Mrs. Am. Gould, died at their home 30 miles north of this city on the Pine River road, on Monday March 13th, of intestinal obstruction, aged five years. Her remains were buried at Pine River on Wednesday, Rev. Jenkins, of this city, conducting the services.

Earl Hawley, who lives at the corner of Tenth and Kingwood streets, died on Tuesday, March 10th, of consumption, aged 39 years. The funeral was held at the Catholic church on Sunday afternoon, the 12th inst., Rev. Father Lynch conducting the services. Deceased has lived in this city for many years being employed while in health at the N. P. shops. He leaves a wife to mourn his loss.

Arlie S. Bain, son of Mr. and Mrs. Geo. Bain, who live at 144 5th street south, died on Friday, March 10th, of spinal meningitis, after an illness of but two days. He was 5 years and 17 months old. The funeral occurred at the house on the 13th, Rev. E. G. Sanderson conducting the services. This is the second son Mr. and Mrs. Bain have lost during the past month. They have the sympathy of many friends in their affliction.

A. F. Altwine, who lives on a farm about eight miles north of the city on the Gull River road, died at the Lumberman's Hospital on Tuesday the 14th inst., of intestinal obstruction, aged 39 years. He became ill the last of last week and was brought to the hospital here for treatment, but he was beyond all medical aid on his arrival. He was well known in the city, having resided here for several years, during a part of which time he conducted the Brainerd Steam Laundry. He was a member of Unity Lodge of Odd Fellows, of this city, by which order funeral services were conducted. The funeral was held yesterday at the Baptist church, Rev. J. A. Jenkins officiating. He leaves a wife to mourn his loss.

D. M. Clark & Co. have just received a large line of lace curtains, which they will retail at from \$1.50 to \$8.

**LASTER-BURGESS.** On Thursday, March 2nd, 1892, by Rev. W. H. Ware, Mr. Fred Laster to Miss Rena Burgess both of this city.

### Change of Time.

A new and improved train service on the Northern Pacific road, from the head of the lakes to Grand Forks, will be inaugurated at an early date, in fact, probably, by April 1st. By this arrangement a through train will leave Duluth and West Superior about 8 o'clock in the evening instead of 3:50, as at present, and will run through to Grand Forks without change. At the same time a through local train will leave Minneapolis and St. Paul, and connect with the west bound train from the head of the lakes by the loop at Brainerd. Later still a through train will leave Minneapolis and St. Paul and run through to Staples, making stops only at Anoka, St. Cloud and Little Falls, until it connects with the Duluth train at St. Paul.

### The Yardmasters' Ball.

We print the following at the request of the committee of invitations for the yardmasters' ball to be given in this city April 3d:

"We find there are several people who did not receive invitations to the Yardmasters' Ball at Brainerd. It is a very trying task to address three or four hundred invitations to different people and miss one. We tried hard to reach every one, but find that we failed on some of our best friends. Kindly consider this an invitation, and do not fail to favor us with your company on that evening. The doorkeepers will admit none but those you will be pleased to associate with. Arrangements have been completed for a special train to leave Staples at 6:45 p. m., which will return from Brainerd after the ball is over. A special coach will be handled on Train No. 5 from St. Paul, and will return at 5 a. m. on Train No. 6, to accommodate parties from the Twin Cities and Little Falls. A large crowd is expected from St. Paul, and a general good time is insured. Music by Whitford's full orchestra. Floor committees and supper will appear on programs.

## A VALUABLE GIFT.

The present high price of pork has greatly stimulated the interest in corn growing. One of the first factors in making a good crop of corn is good seed. The best corn, like the best stock, has a pedigree. The Farmers' Tribune, desiring to extend the circulation of the best weekly news and agricultural paper, offers one quart of the Farmers' Tribune pedigreed seed corn free to every new subscriber who sends \$1 for one year's subscription, between Feb. 15th and May 1st, 1893, if one of these slips is sent with the subscription.

Farmers' Tribune, Minneapolis, Minn.

## SUGAR AND BEAUTY.

How the Consumption of Sweets Has Affected the Form of Women.

The relationship between sugar and beauty may seem rather remote at first, but after all the dependence of beauty on this sweet is intimate. People who have no fat show the projections of their bones through the muscles and skin. The typical "Uncle Sam" is a rawboned, lean fellow, and in early days this was the typical Yankee—that is, a person without fat. Now, sugar is composed of 99.7 per cent. of carbohydrate, or the material that goes to give heat and vital force, and the surplus of this that gets into the body, above what is required for immediate use, is stored up as fat.

In the olden time people ate little sugar; indeed they had little or no money to pay for it, and their fat had to come from the meals that they ate, possibly from salt pork, admitting that fat is stored up in the body as such, which is denied by good authorities.

It can readily be seen what the effect would be when a people began to increase their fat forming food beyond the point of its combustion in the body. Sugar being a highly concentrated food of this character, it is capable of putting many pounds of fat on the animal body if eaten regularly and not necessarily in large quantities, being eaten, as it is, in conjunction with the starchy foods. The 25,000,000 of people in the United States in 1871 ate 692,000,000 pounds of sugar, or 26 pounds apiece on the average. In 1884 the 55,000,000 of people ate nearly 3,000,000,000 pounds, or 54 pounds apiece on the average.

The average per capita consumption more than doubled within thirty-three years, and in getting this average we must include a very large portion of the population that consumes little more sugar per capita than it ever did on account of poverty, infancy and other causes, so that the consumption among these people who are left to account for the great increase in the average must be much larger than a pound a week, which is now less than the general average.

When the water in a river is high, a little addition to it makes a freshet. So it is with the sugar eaters. The starch they eat makes necessary the storing up of a considerable portion of the sugar they eat as fat. This is what rounds out the body and the features, and has made over the old time lean Yankee into broader men and women physically. With this has come the beauty of gracefully curved lines and the obliteration of sharpness and angles. Squalor and wretchedness do not go with well rounded bodies and features of pleasing lines, because not enough food that makes fat after enough has been burned as fuel is eaten. A great deal of the beauty of fair women is made up of fat, and to this sugar largely contributes.—Good Housekeeping.

DOUBLE CHLORIDE OF GOLD REMEDIES.

Induced by progressive physicians, pharmacists and druggists, including Dr. T. DeWitt, manager of Brooklyn Tabernacle, who recently visited Dwight and addressed the 700 patients in line. The United States government has adopted these remedies for use in all States and National Soldiers' Homes. Carefully kept records prove 96 per cent. permanent cures; 65,000 men already made happy. The objectionable features of Sanitarium treatment removed. No hospital; no restriction. All necessary liquors supplied during treatment. Patients are simply received like ourselves. Expense \$25 per week; board extra, \$5 to \$15 per week, to suit purse and inclination. Good accommodations, including bath, at the Institute.

**NOTE OF WARNING.**

To the Public:  
As a matter of justice to ourselves and to the reputation of Dr. Leslie E. Keeley's Double Chloride of Gold Remedies for the cure of the Liquor, Opium, Morphine and Tobacco Habits, we warn the public that these remedies are used by no institution or sanitarium in the United States, except those established by our company under the uniform name of "THE KEELEY INSTITUTE."

All others claiming to use our remedies are frauds and impostors.  
We have now sixty Keeley Institutes established in various parts of the United States, where the Keeley Treatment is administered, and the Keeley remedies sold. We, however, caution all to examine well and know that they are dealing with GENUINE REPRESENTATIVES, authorized by us, before taking treatment or purchasing remedies.  
The succeeding establishments use the name of "Institute of Gold" or similar titles. The newspapers often fail to discriminate sufficiently to know that they are impostors. This is a matter of public welfare, and hence this warning.  
We desire inspection of our Institute and invite correspondence, which is strictly confidential.

The state Agricultural Society has decided to hold no Fair this year. As a result the Board of directors of the Minneapolis Exposition have concluded to combine some of the best features of the fair with their Exposition, and have appropriated a very liberal amount of money to be paid as premiums for the Exhibits of the products of Minnesota farms, gardens and dairys. A special feature will be the large premiums given to the County Society Alliance or farmers' Club making the largest and best display or collection of culinary or stock vegetables or other products grown or produced by residents of any one county; also the most unique, artistic and attractive display of products, and to the individual making collective or single exhibits. These several departments will be under the auspices of committees selected from the State Horticultural Society, State Dairy Association, and State Beekeepers Association, who will also assist in preparing the premium list, which will be issued about May 1st. The Exposition will furnish ample and commodious space and all the necessary facilities for making these exhibits.

## Notes from Legislative Hall.

The legislative bodies have come to the conclusion that hard work will have to be done in order to finish the business of the session in time allotted, the fact being that if no time is wasted between now and the 18th of April, the last day the lawmakers can draw their salary for, there will be many measures that will go down for lack of time. There has been 445 bills introduced in the senate against 780 in the house up to the present time.

The house has passed a resolution fixing on April tenth as the last day of the session, but it is not thought the senate will concur in it, and that the present session will run the full length of time.

The free text book bill was a special order on Tuesday and was recommended to pass after a very lively and interesting debate.

The special committee of the house of which R. C. Dunn, is chairman, and W. A. Fleming a member, appointed to investigate the recent sale of pine in Mule Lake county at \$2.00 per thousand at private sale by the state auditor, when there were men ready to bid \$4 and \$5 for the same stumpage, is making things exceedingly interesting for that official, and will probe the matter to the bottom. There will be some interesting matters brought to light before the matter is settled.

The new state capitol bill which was to have been a special order for Wednesday, was postponed for one week through the persistent efforts of Representative Fleming, who did not desire to vote on the matter until he had fully investigated the matter and consulted his constituents. The bill provides for an appropriation of \$3,000,000 and the appointment of a commission to select a site within three-quarters of a mile of the present one for the new state building.

The bill for the taxation of railroad lands has again been postponed by the senate and will come up on Tuesday next at which time it will be disposed of. The indications are that the senate will not pass it, although there may be a change in the sentiment before the final vote is taken.

The proposed Chicago trip by the legislature appears to be having a hard time of it, and it will not be taken until after the session, if at all. Gov. Nelson has flatly refused to go and the house will be governed by his action.

St. Paul March 9th.

## An Age of Pneumonia.

Slight attacks of cold often develop into Pneumonia. Statistics show that this disease is rapidly increasing in our country and is generally accompanied with fatal results. Cubeb Cough Cure will prevent Pneumonia if taken in time. It is a disease that develops suddenly, with but little warning to the patient, and if not fatal, leaves the system shattered and exhausted.

Cubeb Cough Cure prevents Pneumonia, it instantly relieves the depression, stops exhaustion by relieving the patient from severe coughing spells, keeps up the vitality, does not nauseate and thereby aids nature to restore itself. Can people afford to take any chances when Cubeb Cough Cure is within their reach in 25 and 50 cents bottles?

Sold by N. McFadden.
